

Once you've placed an order, it's down to the logistics network to deliver your goods. Unfortunately, items can get damaged by rough handling and being jiggled about during transportation. Take a look at the parcels in the lorry below – the driver is swerving so much that parcels at the top are falling to the bottom, with ones getting thrown to the right while others are sent to the left!

- Unmarked
- Trade name
- Building block
- Side of an animal
- Become red in the face
- Decorative woven material or hair
- The extreme edge (of disaster)
- Lacking flavour, plain
- Liquid or gas
- Stylishness

I just hope that, unlike these deliveries, my order doesn't arrive in a ...
