TO BE FILLED IN BY
COUNTING BOARD ONLY
PRECINCT NO. _____

You can Navigate 3&4 in County Executive in the same way you navigate the first puzzle, Campaign Trail, to spell the Title with the First names, and Whistle Stop with the last names. (C down to A right to M, right to P right to A, up-left to I, etc.) $3*4 = 12$ so punch out 12.

Representative is similar to the second puzzle, Gerrymandering. If the title were the stars and the It's Sketchy are the diamonds. They read left to right in names 1&2. $2/1 = 2$ so punch out 2.

Governor is puzzle #3 Sound Bites, and uses the mechanism of hiding the title and answer across words, with an extra letter. The extra letter is always the bolded one used for the final answer. 1 and 5 do this and $5-1 = 4$ so punch out 4.

Senator uses clues to the puzzle answer. Scrabble and Chess are games just like checkers, and rushing and Chums are Running and Mates respectively. So $3+5 = 8$. Punch out 8.

Now overlay the ballot onto each race and read the bolded letters: "**LESSER OF TWO EVILS**"
