

# Grandmother's Hobbies

My grandmother just knit me this beautiful scarf - you should *feel* how soft it is!

Grandmother has so many hobbies besides knitting. Give her a pair of scissors, stationery, and Mod Podge and she will **COLLAGE** for hours. We're all lucky she loves to **DUST**; she always has the cleanest floorboards. She loves **GARDENING**; she grew beautiful zucchini last year. And if Grandma isn't going for a **SWIM** in the pool, you may see her solving some **CROSSWORDS** at the kitchen table. The Sunday **GAME** is her favorite; she solves it in pen!

Often, Grandmother likes to sit back, **RELAX**, and read a **CRIME NOVEL**, solving mysteries along with the detective. In the evenings, you might find her going out to **BOWL** with her league at the alley, or **DANCING** with Grandpa. They have perfected their waltz.

Grandmother has some untraditional hobbies as well. She recently learned to **BREW** beer. Last week she was at the track watching **HORSE RACING**. Then she heard a Mighty Mighty Bosstones cover band play. Did you know **SKA** is her favorite type of music?

We're trying to get Grandmother to stop smoking **CIGARS**. After all, if she loves to **SKI** out on the slopes so much, she needs to keep her lungs healthy. And that's not the only sport Grandmother loves. She likes to go **ROWING** with her seniors' crew team and ride **DIRTBIKES**.

I know there's one hobby Grandmother loves most that I haven't highlighted for you yet. I'm circling around it in the dark...what is it? What is Grandmother's favorite activity?
