

# MAYOR'S CHRISTMAS COUNTDOWN

Halloween Town is taking over Christmas Town's holiday, and their mechanical countdown clock is being readjusted for the countdown to Christmas instead! Help the mayor switch on the clock by coding in the remaining 0's and 1's. There cannot be more than two of the same horizontally or vertically adjacent to each other (more than two diagonally adjacent is accepted). Study the clock from top to bottom... what is everyone waiting for?
