Pintopia Brewery Tours

by Sandor W. (Chicago)

The town of Pintopia is home to a dense collection of breweries. There are four touring companies in town, and each brewery is part of exactly one tour. However, the tour guides are all a little mixed up, due to all that beer, and they've forgotten where to go! Help them with their itineraries, then follow the instructions to reveal what I think you should do.

Instructions: For each of the four map sections, trim off the two white margins opposite the axis labels. Then tape the pieces together. Make sure they're aligned well!

Freya's First-rate Bike Tour — 9 breweries

Freya likes lists. Here is one about her tour:

1. Each tour leg travels horizontally and/or vertically, but not diagonally. The tour travels off-road.
2. Each leg is exactly the same distance, as measured in grid squares.
3. The tour always takes the most direct path.
4. Each leg goes up or down exactly one level of elevation, never more, never less.
5. The tour starts on the second level, at Moonwalker Brewery.
