Welcome to Puzzled Pint!

Give us  
Feedback!

**Tonight**

- We're here to help! This is not a competitive event. Ask the Game Control volunteers (GC) for hints as often as you'd like. The goal is to have fun, not to be frustrated!
- **If your location is running virtual**, go to the location page (linked on puzzle download page) and find out how to contact your local GC.
- **If you are collaborating online with your teammates (or have no printer)**: There is a Google Sheet this month! Download and make your own copy to collaborate online together. It can be found on the page where you downloaded the puzzles.

**The Puzzles**

- Each puzzle will solve to a short word or phrase. How? That's for you to discover.
- Need a code sheet or solving resources? Check out the Resources page on Puzzled Pint's webpage: <http://www.puzzledpint.com/resources/>
- You can use anything to help solve: Use your phone; the internet is fair game! Think your brother might have an insight? Give him a call!
- While each month has a theme, you need no special knowledge of the theme to solve.

# EARTH: PRODUCTION LINES

JANUARY 2022

In the Earth Kingdom, the Earthen Fire Industries factory extracts precious minerals and natural resources from the ground. To transform raw materials into finished product, Earthen Fire uses a production line with many processing steps. In between each processing step, all the intermediaries are actual English words. Most materials go through **two processing steps**, but ORE goes through all ten. To solve this puzzle, follow the ORE through the production line.

# META: THE AVATAR CYCLE

Water. Earth. Fire. Air. When one avatar's life comes to an end, the next avatar's existence begins. How could you use the answers to the previous puzzles to describe the process of the avatar cycle?

## BONUS: MY CABBAGES!

JANUARY 2022

Gan-Lan the cabbage merchant has traveled to many places within the world of Avatar. However, during every stop of his journey, he has been met with nothing but trouble. Different people destroyed his cabbages in all five of his destinations! Chart out Gan-Lan's unlucky travels and determine the perpetrator of cabbage destruction in each location. Then, use what you've gleaned to figure out something else that Gan-Lan could sell instead.

- In Wan Shi Tong's library, the Knowledge Seekers ambushed me and ate many of my precious cabbages.
- After the disaster at Ba Sing Se, I decided to go straight to Lake Laogai for a vacation.
- The trip started out badly when a boy named Sokka fell on top of my precious cabbages at my very first location.
- I did not meet Sokka in Full Moon Bay.
- The Avatar may be destined to save this world, but his careless airbending blew my cart into Lake Laogai!
- In the location immediately after the one where guards decimated my cabbages, Iroh incinerated them.
- After Full Moon Bay, I did not go directly to Wan Shin Tong's library.
- My third destination was Ba Sing Se.
