Puzzled Pint

July 2010

Boozie Bottles Solution

The first step is to collect the data from the puzzle. There are 74 bottles. Divide them up by type of liquor to get 7 groups.

Absinthe   Gin   Rum

Schnapps   Tequila   Whiskey

Vodka

Count the number of bottles and use the numbers to represent letters in the English Alphabet.

Liquor	Count	Letter
Absinthe	4	D
Gin	14	N
Rum	11	K
Schnapps	5	E
Tequila	13	M
Whiskey	9	I
Vodka	18	R

Unscramble the letters to get the message: DRINK ME
