

GREEN EGGS AND HAM

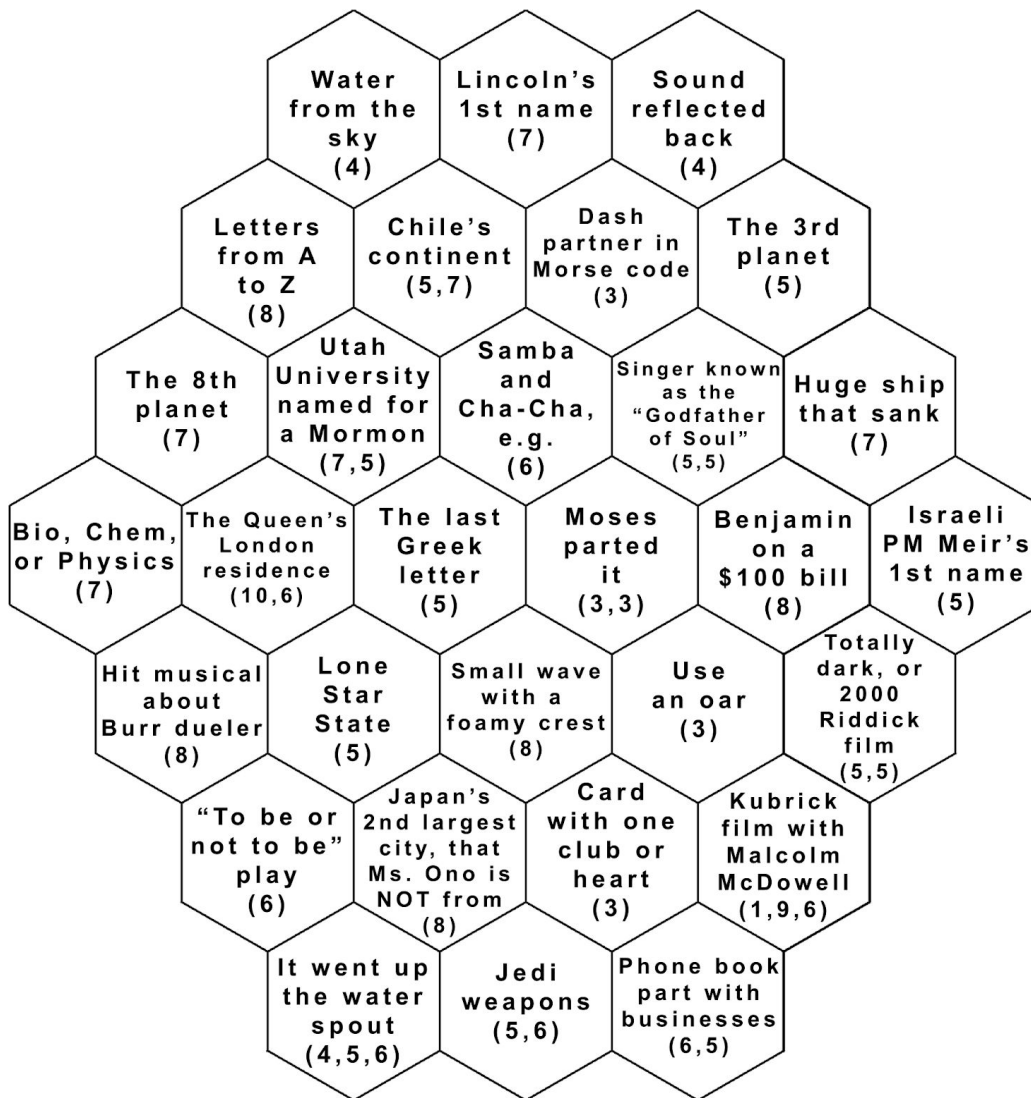

Sam-I-Am and Guy-Am-I shared Green Eggs and Ham once Guy gave them a try.
Guy-Am-I is a ham-loving hound. He **loves having ham** when he's walking around.

Sam-I-Am is a colorful male. He takes **colorful steps** at each step of his trail.

They both want to meet and then break while they eat, but they both have peculiar needs for their feet.
But **what are the paths on the trail that they take?** And **what do they eat** when they're taking their break?

The **off-trail locations** will give you instructions. So now start your solving! No more introductions!

GUY-AM-I

SAM-I-AM

What do they eat when they're taking their break? (7, 8)
