

# FAILING IN SCHOOL

*Bart didn't study for his spelling and vocabulary test, of course.*

Each week, Bart's teacher gives the class an alphabetical list of ten words with brief definitions. At the end of the week, the teacher tests the students by reading the words out loud in random order and asking them to spell the words correctly and write the definitions she provided. Of course, Bart didn't bother to look at the lists for the first two weeks.

Miraculously, he spelled all of the words correctly! But he was way off with his definitions.

\_U\_ \_U\_ \_A\_ \_E\_ : \_R\_ \_L\_ \_E\_ \_O\_

The final answer is a first and last name (6 5).
