Apples to Apples

In Apples to Apples, you pick the red apple card that's most like the green apple. In the "Sour Apples to Apples" variant below, search in the tree and pick the red apples that are the most unlike the green apples. It's easiest to compare apples to apples when you look **underneath the skin**. That **leaves** no question about what's at the core of the game.

Why does the group like to play Apples to Apples?

Team A

Team B

These two teams are trying to draw the same ten words, but Team B did theirs in a different order and they kept missing something!

Twister (1/2)

Ava and Bailey decided to play a game of Twister using only the first, second, and third rows of spots on the mat. They alternate whose turn it is each step of the way.

- A** 1. Ava spun the spinner. Left hand on green. "I'll use the second spot. This game is easy!"
- B** 2. Bailey's turn. "Oh nice, I'm using the same hand as Ava, also on the second spot, just in a different color."
- A** 3. "Same hand, horizontally next to where Bailey ended up. Too bad I had to move my hand to a different spot."
- B** 4. "This time it's my foot, the same side of my body as my hand that's already down, and the same color. I'll use the third spot."
- A** 5. Ava's turn. Left foot on yellow. "Oh good, no one is on this color yet! I'll use the first spot."
- B** 6. Bailey spun the spinner. "This time it's the hand I haven't used yet. It's going two spots away horizontally from Ava's last turn, in the spot next to my other hand."
- A** 7. "Oh, this is a stretch! I have to use the first green spot for something on my right side."
- B** 8. "OK, I have to move the foot that I already placed. I can't reach anything else so I'll just use the first green spot. Maybe Ava won't notice even though her foot is already there..."
- A** 9. "Hey, that's cheating! I'll just move my left hand to where my left foot already is."

Who likes to break taboos?

Clue

Four suspects each need to pick up their favorite weapon on their way to a room. They go through every empty square on the mansion's floor (and not to any named rooms except their destination). No square is entered more than once. When they pick up a weapon, they don't leave a trace, and they keep moving until they end at their intended destination.

Mrs. Peacock is looking forward to waving her weapon around savagely in the Ballroom.

Prof. Plum wants to disguise his weapon as decoration in the Billiard Room.

Mr. Green would like to use his weapon to pare some fruit in the Hall.

Colonel Mustard is planning to coil his weapon around some pots in the Kitchen.

Note: All moves are orthogonal.
