

Location: Title Track

We are so excited about the upcoming 15th Anniversary of Puzzled Pint that we've curated a list of titles to help you celebrate. We've also provided synopses for these titles in case you don't have time to enjoy them all (the summaries are listed chronologically by release date, but you might prefer to **index** them differently). At least that's how we remember them going, and we're not normally the **sort** to mix these things up. Although we have admittedly had 15 on the brain recently...
