

# What is **Puzzled Pint**?

Puzzled Pint is a casual, social puzzle solving event which happens at bars/pubs on the second Tuesday of every month in many cities around the world.

This sampler gives you a small taste of the types of puzzles you might encounter at Puzzled Pint. The goal is to have fun, so hints are always free; we've included hints here, written upside down beneath each puzzle.

## THINK IN CODE

Sometimes we hide encoded messages in puzzles. Solve the nonogram using logic; the first row has been done for you. Then consider how each row can be interpreted as a 5-digit binary code which translates to a letter.

Nonogram  
[How-to Guide](#)

	2					
	1			3	1	3
	2	1		1		3
11		X		X	X

Hint: Once the nonogram is complete, encode the solid squares as 1s and blanks as 0s

## FILL IN THE BLANKS

Many puzzles require solvers to play with words to create new words. Combine pairs of 3-letter words into a list of 6-letter words in the given categories.

- place
- vegetable
- Pokémon type
- part of an essay
- weapon
- headwear
- pronoun

Hint: Combine two words in each row first; then the answer can be found in the gray cells

## USE THE BOLD CLUES

You and puzzles are like peas & carrots – a perfect **match**, even better as **pairs**. You'll soon come to see it. But before **admitting** it yourself, find **what** is never **left over**.

## META PUZZLE

We conclude the evening with a "meta puzzle" - a puzzle that can only be solved using the answers from the other puzzles.

Add the previous puzzle answers on the left to uncover the secret message on the right.
