

Gulliver lands on the island of Lilliput and finds himself befriending a race of tiny people just 6in tall. The Lilliputians are in continual disagreement with the nearby rival island of Blefuscu. One particularly heated argument centres around the important practice of breaking one's boiled eggs. The Lilliputians are adamant they

Sharp protrusion on a tree branch

The Lilliputians think the Blefuscudians are what?

must be broken at the little end, whereas the Blefuscudians insist that they must be broken at the big end. It seems there is no way to resolve the dispute.

But Gulliver suspects they may have more in common than they think. If only they'd **tri counting** the things they agree on instead of **focusing on the differences**...
